

Curs: **Creating the English Experience in Early Primary:
Show and Say! Say and play!**

Formadora: Theresa Zanatta
email: tezanatta@gmail.com
web page: www.theresazanatta.com

In this 30-hour course, we will explore and develop more age-and-stage- appropriate ways of teaching English in the preschool and early primary classroom. This course will provide you with lots of hands-on, oral activities, teaching strategies and language practice to help you become a more confident and effective preschool and early primary English teacher.

You will leave the course with a reading pack, an extensive bibliography, learning tools, classroom posters, a list of effective web sites, technology tools and your own teaching portfolio filled with activities and material to help you to teach English in the preschool and early primary classroom.

We will work together to:

- i. create an interactive print-rich classroom that encourages speaking from the first day of English class
- ii. make, learn and use several songs, chants, stories, big books, games and interactive activities
- iii. discover specific preschool and primary English language websites on the Internet for teachers, students and parents
- iv. incorporate easy-to-use technology in our language classroom
- v. set up classroom routines for fuss-free classroom management
- vi. produce evaluation instruments that are student-centered, easy to manage and provide us with information about how each student is progressing,
- vii. connect with the family in order to increase opportunities for language use and involve caregivers in the English language learning process.

Come prepared to experience language learning and teaching in a relaxed, classroom setting where learning is doing, saying and showing!!!
